DETAILED ACTION

Allowable Subject Matter

Claims **1-4, 9-14, 28-32** are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1, 9 and 18 are allowed because the prior art does not teach or fairly suggest a plurality of impactor components having impaction surfaces carrying particles that have been classified, injecting a solvent solution into each of the plurality of enclosures containing an impaction surface, agitating the solvent applied on each separated and enclosed surface by moving the support so that the plurality of the separated impaction surfaces are agitated simultaneously, and removing a desired amount of liquid for a sample from each separate enclosure. All depending claims are allowable

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
